

# Extra conditions for green deal bill payers

August 2020  
Version 2

These **green deal extra conditions** apply to you if you are a **green deal bill payer**, and you should read them with our **general conditions**. Together, these documents make up a **contract** between us, British Gas Trading Limited, and you, our customer.

Our website shows the most up to date version of these green deal extra conditions at [britishgas.co.uk/business/terms](http://britishgas.co.uk/business/terms).

Any words set out in bold shall have the same meaning as set out in the **general conditions** unless specified otherwise.

1 The following defined terms are used in these green deal extra conditions:

---

**green deal bill payer**

The person or organisation responsible for paying the **price** we charge for the supply of electricity to the **site** where there is a **green deal plan**.

---

**green deal charges**

Any amounts that we must include in your electricity bill under a **green deal plan** for the **site**.

---

**green deal plan**

An agreement between you or your landlord (or the former owner or occupier of a **site**) and a **green deal provider** to make energy efficiency improvements to a **site**.

---

**green deal provider**

Any organisation that is authorised by the Government to offer a **green deal plan** and which you or your landlord (or a former owner or occupier of the **site**) have entered into a **green deal plan** with.

---

2 If you or your landlord or owner of the **site** (if you are a tenant) enter into a **green deal plan** for a **site**, or a previous owner or occupier entered into a **green deal plan** for the **site**, the following terms will apply to you:

- 2.1 You agree to pay us for the **green deal charges**. We will collect your payments for **green deal charges** on behalf of your **green deal provider** and we will send these payments to them.
- 2.2 You must pay the **green deal charges** to us for the time that we supply you with electricity at the **site** (whether or not you have entered into a **contract** with us). If you were a **green deal bill payer** before we started to supply electricity at the **site**, we will collect **green deal charges** from you only from the time we begin to supply the **site**.

- 2.3 If the **contract** is brought to an end, you are still legally responsible for:
- 2.3.1 **green deal charges** which were due during the period which starts with the date that the **contract** was entered into and ends with the date on which the **contract** ends; and
  - 2.3.2 **green deal charges**, where you are still responsible for **charges** for the electricity supply at the **site**.
- 2.4 If you do not pay the **green deal charges**, we will have the same rights under this **contract** that we would have if you owed us any other money under this **contract**. This includes the right to take action to recover the **green deal charges** and/or to stop you from switching supplier. This clause will apply even if:
- 2.4.1 you stop trading;
  - 2.4.2 your business is wound up;
  - 2.4.3 you or your business becomes insolvent or your business goes into administration or receivership or your business enters into an arrangement with people you owe money to (your creditors); or
  - 2.4.4 we have a good reason to believe that there is a risk of any of the above happening.
- 2.5 If you owe any outstanding **charges** (including **green deal charges**), and we receive a part payment (whether direct from you or from a third party, such as a debt collector), we will use that part payment proportionately to pay off the **charges** and the **green deal charges**.
- 2.6 We may collect information about you to manage your **green deal plan**. That can include, for example, your contact details, your date of birth, information about the **energy** supply at your **site** and your bills and payments. We can also get this information from your **green deal provider**, or others involved in your **green deal plan**. We'll use it to do things like bill you, work out the amount we should pay your **green deal provider** for you, review or analyse your **green deal plan** or identify you to others involved in your plan.
- 2.7 We may give information we hold about you to others involved in your **green deal plan** or to other people such as the Secretary of State. These people may use and/or also hire others to process your details for them.
